

ATTENTION

MIAMI-DADE COUNTY BUILDING DEPARTMENT PATRONS

Effective Monday, May 11, 2009, the Building Department will begin assessing upfront fees for plan revision and re-issuance applications. The upfront fee will be \$106.59 for applications relating to plan revision involving a Building Department review, and for re-issuance of existing permits the fee will be \$130.00, and will be credited towards the revised permit fee. For Plan revisions that do not require a Building Department review the up front fee will be \$25.00. For your convenience, these fees can be paid in person or through the website at www.miamidade.gov/building.

Currently, Miami-Dade County collects the revised permit fees when revised permits are issued. This practice has resulted in not recovering costs for services when the applications are abandoned. This change is being made in order to mitigate that loss. Your understanding is appreciated.

Thank you.
